

# Blue packages

FOR NEW BUSINESS CONSTRUCTION

# CHOOSE THE RIGHT APPLIANCE PACKAGE DEPENDING ON THE TYPE OF BUILDING TO BE BUILT.

## Blue packages<sup>1</sup>

Blue packages <sup>1</sup>				Institutional building	Office building	Commercial building	Industrial building	Multi-tenant building	Restaurant
 Heating									
Energy Efficiency Programs	Condensing boiler	Over 90% efficiency, thanks to the recovery of combustion heat.	Up to <b>\$25,000<sup>2</sup></b>	✓				✓	
	Intermediate efficiency boiler	Quickly heats air uniformly.	Up to <b>\$10,000<sup>2</sup></b>					✓	
	Infrared heating unit	Ultra-high efficiency solution for heating large areas like warehouses and garages.	<b>\$200 to \$500<sup>2</sup></b> per unit		✓	✓	✓		
	Condensing unit heater	Energy saver thanks to the high efficiency of condensing appliances.	<b>\$1,000<sup>2</sup></b> per unit		✓	✓	✓		
	Fresh air intake unit	For ventilation purposes: introduces fresh air (to be heated or chilled, according to needs) to maintain optimal air quality.	Up to <b>\$0.25/m<sup>3</sup></b> of natural gas saved Up to a maximum of <b>\$25,000<sup>2</sup></b> See Implementation of Energy Efficiency Measures Program				✓	✓	✓
Consumption rebate program for standard appliances	Roof unit	Standard HVAC (heating, ventilation and air-conditioning) appliance	Consumption Rebate Program <sup>3</sup>		✓	✓	✓		✓
 Hot water									
Energy Efficiency Programs	Condensing water heater	Over 90% efficiency. For domestic hot water needs.	Up to <b>\$20,000<sup>2</sup></b>	✓	✓	✓	✓	✓	✓
 Ventilation/Cooking									
Energy Efficiency Programs	Variable-speed hood (commercial kitchen)	35% – 40% in savings on energy consumption thanks to exhaust modulated in accordance with kitchen activities.	Up to <b>\$9,000<sup>4</sup></b>	✓					✓

FOR STANDARD APPLIANCES, LIKE A ROOF UNIT, UNIT HEATER, ETC., THE FINANCIAL ASSISTANCE IS AVAILABLE THANKS TO THE [CONSUMPTION REBATE PROGRAM](#).

## For more energy efficient construction

For new business construction, each building must meet the needs of a specific activity sector.

Here at a glance are the possible technological combinations linked to our financial assistance.

## MORE PROGRAMS, FOR HIGHLY EFFICIENT PROJECTS

In addition to the blue packages for appliances, Gaz Métro is offering complementary programs for highly efficient projects that concern the building envelope in particular, or that use solar energy.

### Energy Efficiency Programs

#### NEW EFFICIENT CONSTRUCTION

Program for new construction projects (or major expansions) whose efficiency will be at least 13% higher in terms of energy than the ASHRAE 90.1-2007 standard.

Up to a maximum of **\$275,000<sup>2</sup>**

→ \$1.50/m<sup>3</sup> of natural gas saved.<sup>2</sup>

#### ENERGY EFFICIENT RENOVATIONS

Program to facilitate improving the thermal envelope of the building to be renovated.

Up to a maximum of **\$40,000<sup>2</sup>**

(for buildings with annual natural gas consumption below 150,000 m<sup>3</sup>)

Up to a maximum of **\$100,000<sup>2</sup>**

(for buildings with annual natural gas consumption above 150,000 m<sup>3</sup>)

<sup>1</sup> To consult our other packages, visit [gazmetro.com/construction](http://gazmetro.com/construction).

<sup>2</sup> Certain conditions apply. For details and eligibility criteria, visit [gazmetro.com/construction](http://gazmetro.com/construction).

<sup>3</sup> Financial assistance determined according to consumption volume. Eligibility criteria are set out in the Consumption Rebate Program approved by the *Régie de l'énergie*.

<sup>4</sup> Certain conditions apply. Communicate with your Gaz Métro Representative to learn about the amounts granted.

<sup>4</sup> Certain conditions apply. The financial assistance is adjusted in line with the capacity of the exhaust system. For details and eligibility criteria, visit [gazmetro.com/construction](http://gazmetro.com/construction).

Please do not hesitate to communicate with your designated Gaz Métro Representative, who can give you all the information you need about our various energy efficiency programs, as well as the Consumption Rebate Program.
